

INTERNATIONAL ROUND TABLE: KNOWLEDGE SHARING ON INCLUSIONARY ZONING AS A SPATIAL PLANNING TOOL IN INDIA & SOUTH AFRICA

The CEPT Research and Development Foundation (CRDF), India supported by GIZ India, and, the Development Action Group (DAG), South Africa in association with the City Support Programme in the National Treasury and the Lincoln Institute of Land Policy, are delighted to invite you to the International Round Table aimed to facilitate peer learning based on the experiences of Inclusionary Housing / Inclusionary Zoning in cities of the global south: Ahmedabad, India, and Cape Town, South Africa.

With the concept of Inclusionary Housing originating in the United States in the 1970s, most of the available literature focuses on experiences from the Global North, particularly United States and England. However, similar policies have also been successfully implemented in several cities in the Global South. The 2-hour International Round Table draws on experiences of the Inclusionary Zoning Regulations in Ahmedabad, India and Inclusionary Housing in Cape Town, South Africa and deliberates on successes and failures in various cities in India and South Africa, key learnings, practice, outputs, outcomes and its integration with local planning.

We look forward to your participation in this event and to learn from your invaluable experiences in different cities of India and South Africa.

3 SEPTEMBER 2021
17:30 - 19:30 (IST), 14:00 - 16:00 (CAT)
