

## WC MEETING – DIVISION 19

Meeting Date: 04.02.2021

Meeting time: 3.00 PM – 4.30 PM

No of Attendees: 100- 110 members.

- The meeting was delayed by half an hour where they waited in for all the people who they have invited.
- Normally they said the attendance will be up to 70 or 80. Even in this COVID situation there were around 100 to 110 people attended the meeting.
- It was said that the invitation was extended to the president and secretary of the RWA's present in the ward, president and secretary of the ADS of the division, professionals, one representative from the schools preferably the principal of the school.
- There was a strong presence of the RWA members in the WC, it seems that almost all society in the area had their own RWA which were strong in nature. Because of this same reason there were at least 3–4-member representation from each RWA.
- Mostly consists of the middle-class population.
- It is considered that, since it is the first meeting of the year as well as the first meeting of the new councillor the attendees of the meeting is high.
- The meeting was chaired by the councillor, secretary who is the representative from the municipal corporation and another official who guided through the process. The dais also had presence from the political parties and senior members from the ruling party.
- The meeting started with the introduction and the appreciation speech of the newly formed council and the councillor.
- Then they moved on to the part where what the previous councillor did for the division and what is the new councillors envisioned development of the division.
- Then the forum opened up for discussions of issues and suggestions from the people present there.
- 2 RWA's among the ones present came up with few issues and suggestions that can be brought about in the division in that year, it seemed like they have previously

discussed it internally before saying here as they submitted 2–3-page report/ writing after they put forward the issues.

- They mainly discussed about the sanitation issues, waste collection issues in the division as the current system is not regular.
  - Also, about the burning of waste which is resulting in breathing issues in certain areas of the division.
  - Another issue they put forth was the issue with the streetlights in certain areas of the division and cleaning of a water body/ wet land in that area.
- Then there few suggestions for the government school working in the area, for few more furniture requirements.
- Another suggestion that came through was about the Public Health Centre which currently is the emergency covid centre and proposed vaccine centre.
- Then there was a discussion regarding the beneficiary list of PMAY-LIFE mission, about how many needs to submit the documents to get the project approved.
- There were few suggestions as well as issues regarding the agricultural loans for the individuals.
